

---

To Whom It May Concern:

I am writing this letter as documentation and medical waiver for a MASK EXEMPTION for [REDACTED] (DOB: [REDACTED]). I have personally evaluated and treated [REDACTED] in my clinic, as well as worked with the parents on patient/family education. I am aware the CDH does not require any form of medical /documentation or explanation for a mask exemption as this is a HIPAA and privacy violation.

A mask of any type is considered a medical intervention and should only be administered and monitored by a medical professional only with the approval of the parent for that medical intervention.

Regards,

[REDACTED] D.C.
